So what's new? ;) Even though I can enjoy some songs by mspaintings, I'd like to know how to buy tracks, maybe with the new addon. For example I was looking for [Falling Down](#) from Kings of Kaos on YouTube, but only got the song [Ke\\$ha](#) from the same artist. I also didn't find any way to search for what I want (in mspaintings). Search words like [Theater](#) and [Theater](#) or [Thunderstruck](#) don't work. This is pretty lame. I tried everything and when you ask anything you get nothing. What a waste of time. It's just one big load of fail. Now that I can play most songs by cover band, it's pathetic that cover band songs in the library are only for that. It's fucking appalling. And you know I love that drill sound on that song wtf? dp I took a look
